

## Region 4 Continued

# Hunting with an Arsenal

By Sr. Agent Robbie Mayo

I had been getting complaints on Ditto/Gambrell Lane near Peck about people night hunting the area. Sgt. Russ Kiser and I set up in the area Friday night with no luck. We decided to try it again and set up in the area Saturday night. We arrived in our hiding spots about 6:30 p.m.

I was trying to get my truck in position for a long night of watching when I saw a car pull out of a house and come down the road. The car was small and traveling fast. It stopped in front of me and turned its headlights into the field on the other side of the

road then backed up and continued down the road. I knew right then they were looking for a deer.

I contacted Russ on the radio and told him I had one looking. I cranked up and went to the edge of the road to follow him. The car then pulled into a farming shed parking lot and drove around the grain silo's shining with its headlights then it pulled back on the road and continued. I was able to get about 200 yards behind the vehicle to watch its actions. The car continued doing this for about a half of a mile.

As I neared a ninety-

degree turn to the right I could see the cars headlights shining to the left but the car was around the curve stopped. I was stuck and thought if he comes around the curve I'm busted. Which he did and I went ahead and turned my headlights and blue lights on. I asked the driver to exit the vehicle and told the passenger to put his hands on the dash. I walked up and looked in the car and I saw a rifle lying in the center of the

car between the two seats. I retrieved the rifle, which was a Savage .270. I asked the driver what he was doing and he said "I ain't gonna lie, we were looking for deer."

By then Russ had made it to my location. We searched his vehicle and found 6 more guns they had access to and 4 were loaded. The individual was transported to the Catahoula Sheriffs office for booking.
