## Thanksgiving Turkey

By Sgt. Keith Aucoin

On the 24th of November, an anonymous complainant advised Sgt. David Liles of someone who had shot two turkeys on Thanksgiving Day. Sergeant Liles then started to look into this complaint as time went on he was able to find out that this subject had indeed killed two turkeys and had even had his picture taken with them. Well as we all know we have other duties and complaints

that we tend to and during this time Sergeant Liles was able to compile information on the complaint and was able to get an address of where this guy lived.

On the 29th of November I was scheduled to work with Sergeant Liles and we decided to go pay this guy a visit. From information gathered we thought we were going to have a problem with this guy. All indications we had received was that

he would not cooperate and would probably have an attitude problem. Needless to say we were ready for whatever this guy would throw at us.

We pulled up to the residence, which was a nice brick home and walked up and knocked on the door. This young man answered the door and we identified him as the subject we were looking for. We asked him to step outside and we told him we wanted

to ask him a few questions. So far no attitude problems the guy was very cooperative. His Miranda warnings were read to him and we began our questioning. The interview, to our surprise was short and sweet. We asked him where the turkey he had killed on the 23rd was and he stated in the freezer. He was asked how many did you shoot and he told us two. We

then asked to see the weapon he shot them with and he took us into his home where he retrieved a shotgun telling us this is what he shot them with. The subject was then asked to produce the turkey and he stated that they had eaten one already but that he had one left in the freezer. He then went to his freezer and gave us two zip lock bags, one marked Legs and one marked breast.

We then stepped

back outside and issued him a citation for taking Turkey closed season, seized the shotgun he said he had used and the two bags of meat that he had given us. We were unable to locate the photograph that was taken of this subject with his turkey but he wrote a nice detailed statement to what he had done. We left this residence not really believing how easy it was to make that case and wishing they would all be that easy.

*Turkey meat seized. Notice the date.*

*Shotgun used to take turkey.*
