Vice-President's Message

LT. REMY BROUSSARD
VICE-PRESIDENT, LWAA

Over the past few years serving on the LWAA executive board I have had the opportunity to serve with some of the most

genuinely dedicated agents around. The board has made progress by leaps and bounds in getting the word out to the public about just who we are and what we stand for. It has indeed been a team effort between the LWAA and the leadership of the Enforcement Division. The LWAA provides a platform for information to be disseminated while the department provides valuable advice and a "guiding hand" when necessary.

Under the association leadership of Lt.

Darryl Moore many ideas were instituted; many of which were of his own design. Unfortunately, Darryl was called away to serve his country and wasn't able to remain as president and see all of his ideas come to fruition. I, on the other hand, was privileged enough to be able to step up and assist a great group of guys in implementing some of the ideas Darryl offered and set into motion. Most recently Richard Purvis has taken the helm and is steering the board toward even big-

ger and better things.

As a result of the hard work and dedication of our board members, the association is stronger than ever before. The increased revenue from a growing magazine program has enabled us to offer more in the way of financial aid to the many charities available.

This in return has permitted the association's name to become known and recognized not only throughout our state but also across the nation. And it is only

getting better.

By the time you read this message our on-line store should be up and running. This will give us another valuable outlet for promotion of our name and our profession. In addition it is being offered at very little up-front cost to the association. This again is due to the hard work of many people both on and off of the board.

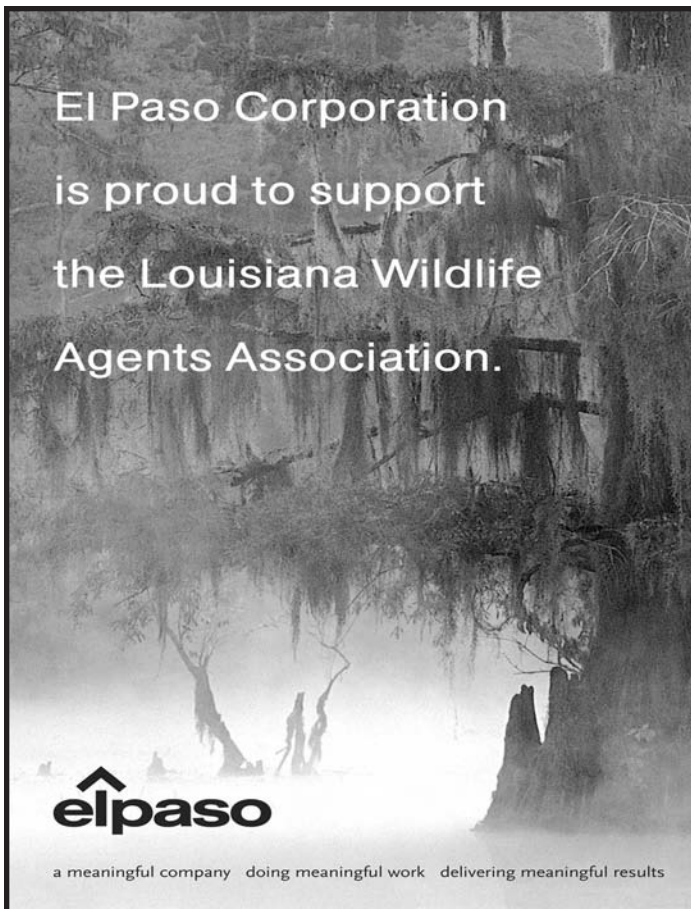

This year at our LWAA convention we will elect a new vice-president and secretary to serve until the 2009 convention. I have thoroughly enjoyed working on the board with the other agents from around the state. I feel

honored to have been a part of the tremendous growth of our association. I also feel that the experience of being an officer is one that should be shared; therefore, I will not run for re-election for the board. I will, however, remain active in the association in many other ways.

I would like to thank all of those who have been of such great assistance to both the board and to me during my tenure on the board. You all know who you are. I would also like to take this time to challenge all of you to take a larger part in the association. Whether it might be running for a board position

or simply writing articles and submitting pictures, there are many opportunities for participation in the growth of our association.

As I have said many times over, "It is your association. You will get out of it what you put in it. Don't disappoint yourselves!"
