# Wal-Mart Supports the LWAA

*By Sr. Agent Wayne Parker*

Since January of this year, Wal-Marts in the state of Louisiana have supported the LWAA and its programs with over \$18,000 in generous donations. These donations are a result of community grant funds geared toward helping each individual local community through programs for youth. These programs include boating education, hunter education, environmental education events and supporting hunting and fishing derbies for youth and the disabled. Local agents who live near and even shop in these area stores pick many of the donations up personally.

On behalf of all members of the Louisiana Wildlife Agents Association, I would like to thank Wal-Mart for support of LWAA programs.

*Sr. Agent Wayne Parker receives a generous donation from the Super Wal-Mart store in Rayville.*
